

Energy Consultant Package

Comprehensive Liability Coverage Tailored for Oil & Gas Industry Consultants

APPLICATION

Our Carrier Provides

Energy Consultants Package is crafted to offer:

Tailored general and professional liability coverage specific to onshore oil and gas consultants with coverage limits scalable up to \$10 million.

Flexible coverage options including umbrella liability for extensive protection, and pollution coverage to address industry-specific risks.

Quick digital insurance of proof of insurance through our award-winning system, accommodating the needs of mobile consultants.

Ideal for U.S. - based oil and gas consultants needing insurance compliance for frequent on-shore site visits.

Designed for site-specific needs, this policy provides general, professional, and options umbrella coverage with limits up to \$10 million. Essential for consultants needing on-site proof of insurance and diverse compliance capabilities.

Policy Coverage

Coverage encompasses General Liability (GL) and Professional Liability (PL) with extensions for:

- Hired and Non-Owned Auto, if required.
- Umbrella coverage extending over standard policy limits, including Owned Auto and employers Liability.

Designed for non-manual consultancy roles within the oil and gas industry, suitable for:

- Drilling, Environmental, Geophysical and Flowback
- Pipeline, Production and Construction
- Health and Safety, Landmen and Logistics
- Pumpers, Gaugers and Reservoir Engineers
- Mud Loggers, Perforating/Completion
- Seismic, Testing, Water, Workover and Well Completion
